

# CITOMAR

## LIQUID SEAWEED EXTRACT (ASCOPHYLLUM NODOSUM)

**CITOMAR ECO** is a product obtained from seaweed formulated in such a way that it can be directly assimilated by the plant. directly assimilated by the plant.

The substances present in the algae, such as natural Cytokinins, favor cell multiplication and the production of carbohydrates and proteins, acting not only as nutrients but also as activators.

### **ADVANTAGES**

Activate and stimulate a larger and more regular vegetative growth.

Promote greater development and fertility of flowers.

Activate the growth and fattening of the fruits, thus obtaining a larger calibre and earlier fruit.

In general, stimulate the plant in times of greatest need and overcome stressful situations (low temperatures, water stress, phytotoxicities.

## RECOMMENDATIONS

Recommended in crops where it is desired to activate growth and increase production, quality and homogeneity of fruits, being also indicated for the recovery of crops that have been subjected to adverse circumstances such as frost, drought, etc.
