

ENERGITEC

COMPOUND LIQUID INORGANIC FERTILISER BASED ON MACRONUTRIENTS NP 5-18,1

ENERGITEC 's special formulation provides the plant with easily assimilated and fast-acting nitrogen and phosphorous, naturally boosting the vegetative and reproductive processes that the plant is developing at any given moment.

ADVANTAGES

CREATE OR ACCELERATE VITALITY: great revitalizing capacity in preventive uses, through systematic treatments, mainly before the appearance of problems; maintaining a flowering and harmonious growth in plants of undetermined development.
GET OUT OF A VEGETATIVE STOP (STRESS): metabolic function is maintained.
PROMOTING DEVELOPMENT: Maintaining nutritional balances quickly and harmoniously.

RECOMMENDATIONS

To enhance the natural development of any crop.
 To help the plant get out of a punctual stress.
 As a phosphorus deficiency, it fattens high yields.
 For immediate development and new sprouts, make an application together with A SPRINT ECO taking advantage of the synergistic action of these two products.

INSTRUCTIONS FOR USE

pH of application: 5 to 5,5

CROP	DOSE
Lettuce, tomato, vegetables in general:	3-5L/ha ①
Citrus, avocados, fruit trees in general:	3-5L/ha ①
